

Bring the Magic of the Ocean to Kids with RI's Life-Size Whale!

ABOUT MITTENS:

Mittens is a 20 foot inflatable replica of a real juvenile Minke Whale seen off the coast of Maine on August 12, 2022. Mittens is available to teach and inspire future ocean heroes in the New England area!

Our 40 minute interactive educational presentations are geared to children Pre-K-grade 5. Along with meeting Mittens, children will participate in age appropriate hands-on activities to learn about New England sea life and ocean conservation! Programs are \$10 per child (20 child min. per session).

Twisted Orca's goal is to give all children a chance to fall in love with ocean life. We offer free online stories, guides, and activities for teachers and families to print out. Please contact us about having Mittens at your organization or community event.
